

# How to Read the Graphs

Baseline = 0

- Base line = 0 means charter group compared to same group in TPS
- \* Or \*\* means difference between Charter and TPS is statistically significant
- ## represents the size of the difference between TPS and Charter in days of learning

# How to Read the Graphs

- Base line = 180 means charter and TPS groups compared to a single TPS group (in this graph reference group is White TPS)
- Horizontal axis represents the average days of learning per year for each racial/ethnic and school type group (180 days= 1 school year)
- Difference between square and dot is difference between charter and TPS for each group
